FIND WHAT MATTERS

**FastFire RD™  
Red Dot Sight**

**User Guide**

The FastFire RD (Rifle Dot) sight features a bright red dot for fast target acquisition and easy aiming. The 1x magnification and 2 MOA red dot allow both-eyes-open shooting for enhanced awareness. The FastFire RD has unlimited eye relief.

## **Mounting the Optic**

The FastFire RD comes factory-ready to mount to a Picatinny rail system. Using the supplied hex wrench, loosen the screw on the right side of the base to open the mount just enough to fit over the width of the rail. Once positioned on the rail, test for proper eye relief and use the wrench to tighten the base screw to 45 in-lbs.

## **Battery Installation / Replacement**

This sight is powered by a single AAA battery. The battery compartment is located on the front of the sight. To open the compartment, turn the cap counter-clockwise. Insert the battery with the positive side (+) first and re-tighten cap completely. To preserve battery life, the FastFire RD is equipped with an Auto-Shut Off. The sight automatically turns off after 4 hours on the 4 brightest settings and 8 hours on the 3 night vision settings. During extended storage, it is recommended that you remove the battery.

## **Red Dot Illumination Adjustment**

To turn the red dot on, press any button on the top of the sight. Once the dot is illuminated, the forward and back buttons can be used to select any of the 7 brightness settings. To turn the sight off, press and hold the rear button on top of the sight for 4 seconds.

## **Windage / Elevation Adjustment**

The elevation adjustment screw is located on top of the sight and the windage adjustment screw can be found on right side. Use a small screwdriver to adjust bullet placement up or down and left or right. Arrows on the dial indicate direction of movement. Each click represents 0.5 MOA of adjustment with 110 MOA overall travel for windage and elevation.

## WARRANTY

We will repair or replace your Burris optic if it is damaged or defective. The warranty is automatically transferred to future owners.

- No repair or replacement charge
  - No warranty card needed
  - No receipt needed
  - No questions asked
