

XC3

COMPACT HANDGUN LIGHT

DESCRIPTION

SureFire's next-generation XC3 builds on our proven XC3 platform with a dramatic increase in performance, delivering nearly double the lumens and candela of the original XC3. Engineered for compact handguns, it combines intense performance with SureFire's renowned duty-grade durability in a streamlined form factor well-suited for everyday carry and defensive use.

It securely fits most railed, compact handgun models and fits in a wide variety of holsters already on the market. The XC3 includes an SFRCR123 rechargeable lithium-ion battery that powers its LED to produce 1,000 lumens of intense white light and 13,000 candela, or you can swap in a 123A lithium battery to deliver 550 lumens, 7,200 candela, and longer runtime. Whichever power source you choose, our precision-engineered parabolic reflector projects an intense beam with a focused hot spot for positive target identification to 228 meters while also providing an optimized corona of diffused light for situational awareness in the near field. Intuitive, ambidextrous switching provides both momentary-on and constant-on activation options. We've machined the XC3's robust, compact body from lightweight, strong aerospace aluminum, then Mil-Spec hard-anodized and sealed it to repel the elements. The result is an innovative, compact weaponlight that is rugged enough for everyday carry without weighing down your handgun.

FEATURES

- Lightweight and ultra-compact; great for compact concealed-carry handguns
- Rail clamp mount securely attaches to most Universal and Picatinny accessory rails
- Dual Fuel capable, the XC3 can be powered by the included SFRCR123 lithium-ion rechargeable battery or a single 123A lithium battery
- Integrated ambidextrous momentary and constant-on switching
- Quickly tap and release either toggle switch for constant on activation; to turn off, simply tap and release either toggle
- Press and hold either toggle switch for momentary-on activation; release to deactivate
- Disable feature prevents accidental activation while in storage or traveling
- Mil-Spec hard-anodized aluminum body and tempered window make it light, rugged, and durable

BEAM PATTERN

SPECIFICATIONS	XC3	
	COLORS	Black
	OUTPUT	1,000 lumens (SFRCR123) / 550 lumens (123A)
	RUNTIME	0.75 hours / 1.75 hours
	PEAK BEAM INTENSITY	13,000 candela / 7,200 candela
	BEAM DISTANCE	228 meters / 170 meters
	CONSTRUCTION	Aluminum
	FINISH	Hard Anodized (MIL-A-8625 Type III, Class 2)
	WEIGHT [W/BATTERIES]	2.65 oz (75 g)
	LENGTH	2.6 in (6.6 cm)
	BEZEL DIAMETER	.945 in (2.4 cm)
	BATTERY	(1) SFRCR123 rechargeable lithium-ion (incl.)
	SWITCHING	Ambidextrous toggle switches
	LIQUID INGRESS PROTECTION	IPX7

All performance claims tested to ANSI/PLATO FL1-2019 Standard.
